

DIDSBURY PIONEER

VOL. XXXIII. No. 18.

DIDSBURY, ALBERTA, THURSDAY, APRIL 30, 1936

\$2.00 per year. 5 cents a copy.

Railways to Cut Fares on June 1st.

Substantial reduction in railway passenger fares in Canada will become effective on June 1 it was announced Friday by C. P. Riddell, chairman of the Canadian Passenger Association. Basic fares for first-class coach travel are being reduced approximately 13 per cent, bringing them approximately to the pre-war level.

Day coach tickets at the new rates will also be good for passage in "tourist" sleeping cars on payment of regular berth fares for that class of accommodation. Round-trip tickets will be good for six months instead of the present limit of thirty days. There will be a reduction in costs of standard parlor and sleeping car accommodation.

Pool Mails Cheques for \$2,750,000

This week Alberta farmers who were members of the 1930 pool will be just \$2,750,000 richer, thanks to the equalization payment for which an order-in-council has just been introduced. Saturday 35,000 cheques totalling that amount were being placed in the mails following authorization for release arriving from Ottawa. The equalization is on a basis of 60 cents at the terminal.

All To Benefit.

Three hundred people would share rescue funds, which last Friday totalled \$26,206, donated for those who helped bring Dr. D. E. Robertson and Alfred Scadding to the surface, the minister of mines for Nova Scotia, Hon. Michael Dwyer, stated Saturday. The man who cut timber in the woods for props was entitled to as much credit as other rescuers, in the opinion of the mines minister.

"All played their separate parts in the rescue and all will share the funds," Mr. Dwyer said.

I.O.D.E. Will Present Prize

The I.O.D.E. met at the home of Mrs. Dunlop on Monday evening. A report of the convention held at Edmonton, was given by Mrs. Ranton who was the local delegate.

Mrs. Evans gave an excellent paper on "The League of Nations." A flower contest was held, the winners going to Mrs. Foote and Mrs. Mortimer.

It was decided to hold a "Violet tag day" on Saturday, May 23rd, in aid of the Hospital Nursery fund.

This year the I.O.D.E. will present prizes to high school students. Prizes of \$5.00 and \$3.00 will be given to each grade for the highest average in literature, composition and history.

WEDDINGS

BOLTON—PROSS.

A quiet wedding took place at the Manse, Didsbury, on Monday evening, April 20, 1936, when Helen Orissa Marguerite, eldest daughter of Mr. and Mrs. Fernando Pross, of Didsbury, was united in marriage with Joseph Edward Bolton, only son of Mrs. Bolton, of Westerdale.

The bride was attended by her sister, Margery, while Mr. Wilfred Wigley supported the groom. Rev. J. R. Geeson performed the ceremony.

After the ceremony the young couple left for Westerdale, where they will reside on the groom's farm. Best wishes are extended to Mr. and Mrs. Bolton for a long and happy married life.

Fifty Years Married.

Mr. and Mrs. Dan Dippel, who are very well and favorably known throughout the district, celebrated their golden wedding anniversary on Sunday and Monday.

On Sunday a family dinner was served and the table, which was decorated with carnations and gold streamers, was surmounted by a three-tier wedding cake.

On Monday afternoon Mr. and Mrs. Dippel held an open house and a large number of friends called on them to offer their congratulations.

In the evening the congregation of Zion Evangelical Church gave them a surprise visit. Mrs. Berscht presided and congratulatory talks were given by Mrs. Tuggle, Rev. H. J. Wood, Rev. F. S. Spies, Mr. H. M. Reiber and Mr. M. B. Clemens.

Mr. Dippel replied and gave a short history of their life since marriage. A number of musical selections were given and a bounteous lunch brought an enjoyable evening to a close.

Mr. Dippel was born at Elmira, Ontario, on September 10, 1861, and Mrs. Dippel (nee Mary Hunsberger) at Listowel, Ontario, on December 19, 1861. At the age of 21 Mr. Dippel moved to De Witt, Nebraska, and they were married at that place on April 27, 1886. They lived in Nebraska until 1906 when they moved with their family to Didsbury.

During their life here they have gained the respect of the whole community. Both were interested in church work and have taken a prominent part in the work of the Evangelical Church. For over 15 years Mr. Dippel served on the board of trustees and was also a president of the local branch of the British and Foreign Bible Society. He was three times delegate to the Northwest Conference of the Evangelical Church and also delegate to the General Conference held in the U.S. Mr. Dippel was also very much interested in agriculture and was president of the Didsbury Agricultural Society for several years. Mr. and Mrs. Dippel have both made a distinct contribution to the building-up of the district during the past thirty years.

There were five children born to their union, of which four survive: George, of Didsbury; Mrs. Verne Shantz, of Olds; Mose, of Didsbury and Ezra, at home.

We join with their many friends and the whole community in wishing them many more years of happy married life.

"Breach of Promise" Attracts Large Crowd

The three-act comedy, "Breach of Promise," which was presented by the Didsbury School Staff and other assisting artists on Tuesday evening proved a big attraction and the hall was crowded to capacity.

The play, in which a designing actress and her slick lawyer tried to relieve Beau Spencer of some of his newly-inherited millions by a breach of promise suit and a series of mistaken identities, was full of comedy and the players made most of the situations.

The play was put on in an excellent manner and showed that Didsbury is not lacking in dramatic talent. The audience seemed to be delighted with the presentation and many complimentary remarks were heard after the show.

The following were the cast: Botta, the butler..... Ernest Traub Mrs. Hawkes, who works by the day..... Iva Rupp Herman Manley, a noted explorer..... Don Cameron Beau Spencer, who inherits millions..... Orville Kirk Alfred Kendall, a lawyer with love letters..... Ross Ford Elaine St. Claire, to whom they are written..... Lucille Smith Momma, a parent for the occasion..... Ruth Liesemer Boo-Boo, an imp from Africa..... Dong Robertson Ruth Dennis, impersonates Botta's sweetheart..... Anne Jackson Sophie Klatzman, a "gook"..... Evelyn Liesemer

Weekend Special! Six Pairs of Dress Socks for \$1.00.—T. E. Scott.

GOPHER POISON. NOTICE.

The Municipality of Mountain View, No. 310, has arranged with the dealers in gopher poison at Didsbury, Olds and other points, to supply an equal amount of gopher poison to that paid for by the farmers of the municipality, the arrangement to be in effect until the 1st day of June, 1936.

The Council requests that the farmers place their poison early.

Didsbury Man Critically Injured in Unusual Mishap

Henry Banks, 30, farm laborer, had several ribs smashed and received numerous external and internal injuries when his clothes caught in the propeller shaft of a truck on which he was riding Saturday night. Harvey Burgess, driving into Didsbury with a truck having no box on, was asked by Banks for a ride. The cab being full, Banks said he would ride on the chassis. Apparently a trouser leg got caught in the propeller shaft and immediately Bank's clothes were torn off completely and his body badly injured. The only clothes left were his shoes and stockings.

Burgess stopped immediately and after extricating Banks went to a farmhouse, where Dr. J. L. Clarke was called and Banks was rushed to the Didsbury Hospital. While his condition was thought to be critical, he seems to be recovering nicely. Banks is employed by John Manson, Didsbury farmer.

Golf Meeting.

The organization meeting of the Golf Club was held Monday evening at the C.P.R. waiting-room.

E. G. Ranton was again elected president and J. W. Wordie secretary.

Membership Committee: George Julien, C. E. Reiber and A. Brusco. Grounds Committee: E. G. Ranton, J. W. Wordie and A. Brusco. It was decided to rebuild the bridges which were taken out by the spring flood and to fix up the fairway and greens. It was pointed out that with a little effort the links could be made into a real sports nine-hole course.

In an effort to make the membership as large as possible the fees have been set at the nominal price of: Gentlemen \$5.00, Ladies \$1.00.

The Human Factor In Automobile Accidents

Commencing from about the time this appears in print the graph recording deaths and injuries from automobile accidents will take an upward turn and for the next few months remain at a high altitude, if history repeats itself, and there is no reason to believe it will not.

For figures of the past few years show no tendency towards declination in the toll of deaths and injuries taken by gasoline propelled vehicles in Canada. Figures recently released show that in the first nine months of 1935 the automobile was responsible for the deaths of 778 persons in the Dominion which means, if the same rate was maintained for the remainder of the year, an average of three a day for the twelve months.

Undoubtedly the incidence for the summer months in the prairie provinces is greater than its mathematical ratio to the Dominion for the whole year, when it is borne in mind that a larger percentage of cars is in cold storage the greater part of the winter months in the west than in Eastern Canada.

Whether or not campaigns which have been conducted during the past winter over American radio chains and by distribution of literature through the mails and campaigns for safer driving which are planned by governmental and other agencies both in the United States and Canada for the coming summer months will be effective in reducing this terrible toll will not be known until the fall or winter.

It is at least a consolation to know that the general public in Canada and the United States has become thoroughly aroused to the danger of the automobile. This is evidenced by the fact that the pamphlet "—And Sudden Death—" has reached an estimated 35,000,000 readers, either directly or in re-printed form in the newspapers. The message conveyed by this publication would not have reached such a large number of people had there not been a demand for it.

But in speculating on the possible mitigating effect of such wide publicity on the future accident toll it must be borne in mind that results will only be measured by the extent to which each individual driver takes the lessons to heart as his or her own individual responsibility. If he or she adopts the view that the warning is not meant for him but for "the other fellow", results will be negative, for many who might generally be regarded as safe drivers suffer lapses at times and even take chances occasionally.

Analysis of figures and available data on automobile accidents demonstrate beyond peradventure that the great majority of such accidents are attributable to human frailty and human foibles rather than, for instance, defective equipment, despite the stress which is laid on the importance of cars being maintained in perfect mechanical condition by automotive supply firms sponsoring some of the "safety first" radio campaigns of the past winter.

This does not mean, of course, that defective equipment is not responsible for accidents but but analysis of data shows that the number of accidents attributable to such causes is insignificant in comparison with the enormous percentage due to the actions of the man or woman while at the wheel.

Attention to this phase of the problem of safer driving is drawn by Merrill Denison in the first of a series of articles appearing in the March issue of the Canadian Home Journal. He shows that out of 10,918 cars involved in auto accidents in Ontario the first nine months of 1935, no less than 10,296 were classified as in "apparent good condition", that is, steering mechanisms were all right, brakes were in good condition and lights and tires were not defective.

The writer further reports that out of 10,565 of these accidents studied by the Motor Vehicles Department of that province 10,296 were classified as "normal." Only 124 were suffering from extreme fatigue, which probably meant they were asleep, only 110 were intoxicated and only 35 had physical defects.

All of which means that nine out of every ten accidents could not be attributed to defective equipment or abnormality in the drivers.

"What interpretation can be placed on these figures? Do they not point to the fact that bad driving is at the bottom of the trouble?" pertinently asks Mr. Denison, laying the foundation for a suggestion that women can be an important influence in instilling safety into drivers. This they could achieve, he suggests, individually, by using their influence "to alter the driving habits and manners of the older members of the family," and collectively, "they can demand that the proven safety techniques be adopted in their cities and provinces; that educational courses be made a part of both elementary and high school curricula and that a greater portion of the tax money derived from motor vehicles be devoted to safety development before being diverted to other purposes."

Purity Flour means real economy. It goes farther. Rich in nourishing gluten, it makes bread that rises right up out of the pans—and the most delicious biscuits, cakes, pies and flaky pastry ever baked!

Alberta Dry Belts

Recommend Unproductive Areas Should Be Put Under Special Act

The section of the dry belts in Alberta where unproductive soil, or unfavorable weather conditions, have made farming operations hazardous, should be placed under the administration of the Special Municipal Areas Act, according to the recommendations of the special survey committee, headed by O. S. Longman, provincial field crops commissioner.

The committee, appointed by the former government last year, made an extensive study of the whole problem of farming in dry areas.

It recommends that areas administered under the act should adopt a direct relief system and that special agricultural relief should be discontinued.

Development of water resources, small irrigation projects and improved farm cultural practices also are recommended.

Northern Transportation

Big Tractor Hauls 31 Loads Of Spruce Logs In Bush Country

Northern transportation circles experienced a thrill recently when all records for ice road hauling were smashed by a 75-horsepower caterpillar Diesel tractor. This record was set up at the Sipanok River camp of The Pas Lumber Company.

The big tractor was driven nine miles back into the bush, hitched on to 34 big loads of spruce logs, and successfully dragged the logs into the mill yards. Sipanok River camp is located 70 miles northeast of Nipawin.

The log train extended almost 300 yards from the tractor, and estimated weight was close to 1,400 tons.

E. J. Morris, formerly of the city engineer's department, Regina, was at the controls of the tractor. He was once a Regina Flying Club member and was known at Balfour Technical school.

Relief Loans

Federal Government Advances More Than \$111,000,000 To Provinces

Outstanding loans from the federal treasury to the provinces under relief legislation amount to more than \$111,000,000, according to a return tabled in the House of Commons at the request of W. M. Ryan (Lib., Saint John-Albert).

Only four provinces share in these loans, as follows: Manitoba, \$15,028,086; Saskatchewan, \$46,834,986; Alberta, \$22,779,000; and British Columbia, \$26,947,680.

Additional loans to the provinces still outstanding, arising from the Dominion housing loans of 1919 were reported as follows: Prince Edward Island, \$31,500; Nova Scotia, \$682,000; New Brunswick, \$648,700; Quebec, \$2,609,687; Manitoba, \$1,095,000; and British Columbia, \$1,701,500.

Idea Was Original

Man Used Ice Disks Successfully In Gas Meter

Gas inspectors of London accustomed to finding tin disks, medals, buttons and foreign coins in gas meters, give the palm for originality to a business man who has been using disks made of ice. Large amounts of gas had been used by this consumer, but whenever the collector called to empty the meter few coins were found. It was noticed that the meter was exceptionally damp. Investigation convinced the authorities that the consumer had been dropping ice disks in the slot instead of coins.

Has Three Kidneys

A case of unusual anatomical structure as rare as the "upside-down stomach" came to light in Detroit with the disclosure that Sanford Getz, Jr., 17 years old, of Brown City, Mich., has three kidneys. He is recovering from an operation. The discovery of an extra kidney was made by Dr. George C. Burr who recently operated on the youth.

The mast of a sailboat invented in Sweden revolves to roll its sail, enabling one man to handle the craft.

SELECTED RECIPES

DATE BRAN GEMS

3 tablespoons butter
1/2 cup brown sugar
1/4 cup milk
3/4 cup water
1 cup Quaker Natural Bran
1 cup Quaker flour
1/2 teaspoon salt
4 teaspoons baking powder
1 cup dates (stoned and chopped)
Method: Cream butter and sugar, add well-beaten egg, milk and water. Sift in flour, salt and baking powder. Beat well, stir in dates, and pour in greased pans. Bake in moderate oven. Temperature: 375 degrees F.

In Both Languages

Radio News Service Is Furnished In French And English

"Radio News Service", carrying news of programs, artists and schedules has been furnished newspapers, magazines and broadcasting stations in both French and English, according to a reply in the House of Commons to a question asked by Joseph Mallette (Lib., Jacques-Cartier). Marine Minister Howe said the service had been given since July 1 last at a cost, for the first six months, of \$999.

Want Representation

Western Producers Wish To Be Present At Imperial Conference

The Dominion government would be asked to invite organizations of primary producers to nominate representatives to accompany the government representation in an advisory capacity to the imperial conference in London in 1937, it was decided at the third meeting of the Western Agricultural Conference in Calgary.

The resolution also requested each branch of the agricultural industry entering the export field be represented at a proposed conference of British Empire primary producers to be held prior to the imperial conference.

Another adopted motion said that if the supreme court of Canada declared the Natural Products Marketing Act valid, the conference should urge the Dominion government to seek the co-operation of the provinces to ensure that its terms be immediately supported by uniform enabling legislation in each province.

The safest time to drive an automobile is between six and seven in the morning, on Wednesday, according to a survey of accidents in Pennsylvania.

World's Largest Telescope May Shed New Light On Riddle Of The Universe

Astronomers estimate the new 200-inch telescope using the great mirror will double the distance man can see to some 3,600,000,000,000,000 million miles.

It is expected to bring into view 100 million galaxies like the one the earth's solar system moves in; to shed new light on the riddle of what the universe is doing, and perhaps to solve the intriguing question of whether there is life on Mars.

Theoretically, but not practically, the mammoth telescope will be powerful enough to show a skyscraper on the face of the moon or to spy across the country into the windows of the capitol in Washington.

The big sky-eye is being erected atop 6,000-foot Mount Palomar in the clear-aided San Diego mountains near the Mexican border. San Diego, nearest big city, is 129 miles away, assuring that there will be no bothersome ground lights.

California Institute of Technology is the builder, aided technically by Mt. Wilson observatory, whose 100-inch Hooker telescope the new giant will succeed as the "world's largest."

Upon completion some time after 1940, the telescope will become science's largest and costliest tool. The great mass will weigh some 500 tons. The expected cost has not been estimated, but guesses of various scientists range from \$2,000,000 to \$3,000,000.

The "great eye," the mirror to be delivered by a New York state glass works, is the heart of the new instrument.

For four years the big chunk of pyrex, nearly 17 feet across and 23 inches thick, will be whirled under a grinding tool inside a cork-lined, air-conditioned "laboratory". For all its 17 tons, the glass will be handled easily as a round of cheese by a 100-ton grinding machine, bulking 40 feet long and 30 high.

Some time in 1939 or 1940 the glass will have been ground to a perfect parabolic curve and will be given a coating of aluminum. The mirror will then resemble a giant, shiny saucer, with a hole in the centre.

Mounted at the bottom of a 55-foot steel tube balanced so delicately as to move almost at a finger's touch, the mirror will begin its job as a "great eye" some 360,000 times as effective as a human eye.

Contrary to popular belief, the telescope will not magnify. The mirror will act as a "light funnel." All light reaching the 200-inch circle will be reflected inward, because of the curved surface, to a single beam small enough to enter the eye.

A distant star's image reflected to this point of focus will be bright and sharp. Subsequently this image then may be magnified greatly through a set of lens without becoming fuzzy—just as a photograph by a high-powered camera may be enlarged more than one from a cheaper one without losing its distinctness.

Distortion caused by the earth's atmosphere limits the degree of magnification possible. Thus, though the telescope theoretically is powerful enough to show up two bright spots 30 feet apart on the face of the moon, this power cannot be realized.

Further, astronomers will not waste time pointing the 200-inch giant at the moon and other nearby objects well within smaller telescope's range. The new instrument will pick up where the present world's largest telescope leaves off.

Present limits of the Mt. Wilson telescope is 1,800,000,000,000,000 million miles, where Dr. Edwin Hubble has glimpsed far-off nebulae. Mt. Wilson astronomers estimate the 200-inch telescope should double the range of the 100-inch instrument.

Astronomers using the new telescope at direct focus will perch in a carriage-shaped cart in the middle of the 55-foot tube near the top. They will look directly down at the mirror.

Under other arrangements, a small

mirror, instead of the astronomers, will be placed at the end of the tube. The mirror will reflect the star images back through a hole in the centre of the "great eye." In another type of focus, a mirror placed at a 45-degree angle will reflect the light off to one side.

Astronomers will do little direct "seeing". Most of the work will be done photographically. A camera plate exposed to the reflection from the "great eye" for hours will pick up dim stars and nebulae that a direct visual observation would miss. The developed photographs are studied under microscopes later.

Sulphur Needed In Soil

Alberta And Saskatchewan Save Millions Of Acres From Aridity

Alberta and Saskatchewan have grown by many millions of acres during the past few months; at least the area of useful agricultural land has grown. It happened because an experimental station had some scabby potatoes. The curious story is told in an article by Dr. J. D. Newton, professor of soils at the University of Alberta, writing in the latest issue of Scientific Agriculture. Professor Newton is one of the famous family that has been so prominent in agricultural research in Canada.

In northern Saskatchewan and Alberta are millions of acres of gray bush soils that produce poor crops. They have not enough sulphur. In central and southern Saskatchewan are scores of alkali lakes. The soil around them does not grow much. It has too much sulphur.

Put a hundred pounds of the "alkali" from the lakes on an acre of the gray bush soil and one is rewarded with an extra ton of clover hay. The yield is doubled or trebled. And the discovery was made because some potatoes were scabby and started experimental work.

The gray, wooded belt is the largest of the great soil zones of Alberta, but is still rather sparsely settled. In Saskatchewan, the northern trek during the drought years carried some 40,000 people from the prairie to this type of soil.

Professor F. A. Wyatt, in charge of the Breton Experimental station, finds that when legumes have been successfully grown with fertilizers on the gray soil, "the crop yields become of the same order as those obtained from the black soils."

Test Was A Failure

Girl Might Better Have Left Things As They Were

She was frightfully near-sighted and couldn't recognize things more than a yard away. Her lover didn't know of it yet and she was going to make sure he didn't find out. Before he called this evening, she placed a pin in a tree about 50 feet from a bench where she was certain they would sit.

Sure enough they strolled for some time in the garden and then he suggested sitting on the bench.

"Oh, look at the pin in that tree over there," she exclaimed.

"Don't be foolish! You couldn't see a pin in that tree over there. Why, its over 90 feet away."

"You come with me and I'll prove there's a pin in that tree."

She grabbed him by the hand and they started for the tree.

On the way she stumbled over a cow.

Led In Numbers

An Englishman, an Irishman and a Scotsman were having lunch together.

"By the way, did either of you go to Smyth's wedding?" enquired the Englishman. "I wasn't able to go, but I sent him a dinner service set for twelve people."

"I wasn't there either," said the Irishman, "but I sent a tea set for 24 people. Were you there, McTavish?"

"No, I couldn't get there, but I sent him a pair of sugar tongs for a hundred people."

Machine Has Many Uses

Taking Guesswork Out Of Mining Is One Feature

Twenty years of research and experimentation, and the outlay of \$50,000, has given birth to a machine that, it is asserted, will take much of the guesswork out of mining, make salvage work a push-over, pare down the percentage of jail-breakers, and remove the profit from smuggling.

It was demonstrated in Edmonton recently before Major-Gen. Sir James MacBrien, R.C.M.P. commissioner, and others.

Built something like a radio, it weighs 14 pounds and, it is claimed, can determine the location of precious metals and magnetic bodies through 500 feet of overburden or rock; register to within 5 per cent. the depth of the vein; differentiate between gold, silver, radium, platinum, chromium, copper, iron; locate narcotics, concealed weapons; find sunken cargoes, and register the length, width, depth and closest outcropping of sulphide ores.

In hospitals it can locate shrapnel and bullets in patients. In penitentiaries it can spot saws, files and guns on prisoners. On board ship it can locate secret hiding places of narcotics, its sponsors claim.

When approaching metal, the machine sings a whiney song.

Where Agriculture Stands

Farmers Prepared To Do Their Full Share Towards National Recovery

Farmers ask no more and no less than the moral, economic and political equivalent of the advantages enjoyed by industry through the corporate form of organization and the protective tariff. Farmers are willing to have their demands checked against any fair, living interpretation of the general welfare. They have not and will not deliberately reduce production below the needs of domestic consumers. They are prepared to do their full share towards a national economic goal of this sort: Increased, balanced production of the things we all really need and want, at prices low enough to keep the stuff moving into consumption, yet high enough to keep producers producing, and with income so distributed that none shall be denied participation in consumption, except those who refuse to work; with scrupulous regard for our remaining natural resources; and by means in harmony with our traditional democratic processes.—Henry A. Wallace.

Through Vancouver Port

More than 11,000,000 bushels of grain were exported from Vancouver during February, the largest monthly figure in several seasons. This brings the total shipments to date this season to 31,332,893 bushels compared with 29,406,762 bushels at the same time last year.

Exploration Work Carried On In 1935 Leads To Many Outstanding Discoveries

A few more of the world's fast dwindling "blind spots" were explored or mapped during 1935, says the National Geographic Society, in an annual review of discovery and outstanding geographic expeditions.

"The geological party of the Byrd Antarctic Expedition II, completed in January, 1935, a 1,410 mile sledging trip which penetrated into Antarctica to within 180 miles of the south pole," continues the review. "The party discovered extensive coal deposits within 200 miles of the pole."

"Numerous other important discoveries were made by the expedition in 1934. Byrd and his party returned to the United States on May 7, 1935."

"Bradford Washburn, leading the National Geographic Society Yukon expedition, explored and mapped 2,000 square miles of previously unknown region in the southwestern corner of Yukon Territory, Canada, discovering 19 new mountain peaks more than 10,000 feet high, and a number of extensive glaciers. Two of the newly discovered mountains were named for King George and Queen Mary of Great Britain in honor of their jubilee year."

"Mount Steele, Yukon Territory, Canada, 16,439 feet high, was scaled Aug. 15 by Walter Wood."

"An airplane journey of 4,000 miles by Dr. Charles Camsell in northwestern Canada disclosed that the Rocky Mountains come to an end in a plateau north of the Liard river at 60 degrees north latitude."

"A low, narrow island, one mile long, was discovered Jan. 6, 1935, in the Timor sea approximately 600 miles northwest of Broome, Australia."

"A waterfall, estimated to have a drop of more than 1,000 feet, was discovered last summer from an airplane by Penny Rogers in the Chiripo mountains of Costa Rica."

"A previously uncharted subsea peak, rising from a depth of 20,000 feet to within 300 feet of the surface of the Atlantic, was discovered near the Madeira Islands by a French cable repair ship."

"An underwater range of mountains, some rising almost sheerly for 11,000 feet, was discovered in Bering sea between the Aleutian and Pribilof Islands, by an American cutter."

"Ice breakers of the Soviet government established more firmly the northeast passage between ports of the White sea and the far east. A number of ships made the trip in each direction during the summer."

"Previously unknown islands were discovered by Russian expeditions in Arctic waters north of Siberia. Usha-

koff Island was found Sept. 1, by the ice breaker Sadko about midway between the northern end of North Land (formerly Nicholas II. Land) and Graham Bell Island. A week later the Sadko discovered three additional islands to the eastward."

"A hitherto unknown agricultural people, the Tari Eura, light brown and with certain Asiatic characteristics, was discovered early in 1935 in previously unexplored territory in the interior of New Guinea by H. G. Hides, an assistant resident magistrate, during a patrol trip."

"A pygmy tribe was discovered in July in a mountainous region of Annam, French Indo-China."

"An expedition into the Gobi desert of Mongolia led by Prof. Nicholas Roerich brought out a collection of 300 drought resistant plants."

"An expedition headed by Dr. Otto Geist obtained from St. Lawrence Island in Bering sea, skeletal remains believed to bear on the migration of man from Asia to America."

"Further studies of remains of early settlements on Kodiak Island were made by Dr. Ales Hrdlicka of the Smithsonian Institution."

"A 200 mile canyon on the San Juan and Colorado rivers was explored and 3,000 square miles of territory mapped, by expeditions sent out by the United States national park service."

"The first geological survey of the Salmon river canyon, Idaho, was made by an expedition sent by the National Geographic Society."

Loch Ness Monster

Visitor To Scotland From Manitoba Alleged To Have Seen Strange Creature

Allan Chisholm, former mayor of Morris, Man., witnessed the first appearance this season of the famous Loch Ness monster, according to a story in the London Daily Mail. The newspaper's despatch, from Glen Urquhart, Scotland, quoted Chisholm as saying:

"I only arrived in my native glen a few days ago. I have been sceptical of the existence of the monster. All doubt has now vanished. I am certain that in the loch is a creature very large and mysterious."

Chisholm was motoring to a point above the loch with his niece, Marjorie McKenzie of Douglas Row, Inverness, when they saw a large creature emerge from the water near Inversarigaig, the Mail despatch said. Inversarigaig is a village on the opposite side of the loch.

"The creature was about 300 feet long," said Chisholm, "its neck projecting with a giant resemblance to a racehorse in action. The neck and the greater part of the head apparently was flabby or covered with matted hair. The beast remained on the surface more than two minutes."

To Revise Birthstone List

Jewellers Say More Reasonable Alternates Are Likely Additions

A revision of the official list of birthstones and anniversaries is planned by the California Retail Jewellers' Association, according to R. W. Rinehart, of Oakland, California, president of the organization.

The present list of birthstones was compiled in 1912, according to Rinehart, and since then a number of stones have become popular which do not appear on the list. The present idea is principally to provide alternates for some of the stones on the list.

Aquamarine, Rinehart declares, is almost certain to be on the new list, and also a new gem called spinal coral, as well as sardonyx, tourmaline and zircon.

Some of these stones are much cheaper than those now listed as birthstones.

Doctor: "Humph! I can't quite diagnose your case. I think it's drink."

Patient: "Oh I see. Now, look here, doctor. Would you like me to come again when you're sober?"

Cross Stitch Makes Gay Linens

Household Arts by Alice Brooks

Peasant Motifs Quick to Do in Cross Stitch

PATTERN 5445

Gay as a lark!—this peasant lassie, who will put a song in YOUR heart, too, as you embroider her picturesque costume (each day a different one) on a set of seven tea towels. Done mainly in cross stitch, single and outline stitch, you'll use up gay bits of cotton floss, this way.

In pattern 5445 you will find a transfer pattern of seven motifs averaging about 5½ x 8 inches (one for each day of the week); material requirements; color suggestions; illustrations of all stitches needed.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg.

There is no Alice Brooks pattern book published

Alberta Tax Exemptions

A long list of commodities to be exempt from Alberta's new 2% sales tax was issued Thursday by Acting Premier J. W. Huggill, K.C. and Provincial Treasurer Charles Cockroft.

The exemptions cover a wide scope, including most of the primary necessities of life, many of the prime needs of industry, most foods, agricultural needs, many of the secondary needs in conducting business, and all commodities sold for consumption or use outside the province.

The sales tax is levied under the act just passed at the present session of the legislature, and in the budget is estimated to yield \$2,000,000 annually in provincial revenue.

List of Exemptions.

The list of exemptions specifies those articles exempt under the terms of the act itself, including bread, milk, coal, gas, water, newspapers, farm machinery and repairs thereto, binder twine, electricity, agricultural produce produced within the province when sold by the producer thereof, fuel oil as designated by the fuel oil act, liquor as specified under the liquor control act, tobacco, sugar and flour, and adds all these:

Advertising: In newspapers, periodicals, etc. Advertising literature (see "printed matter"), amusement tickets, annuities.

Bailiffs' sales. Beverages: Tea, coffee and their substitutes, cocoa, mineral waters, medicinal waters. Bonds. Books for use in churches and schools. Bulbs, plants, shrubs and trees produced within the province when sold by the producer thereof.

Cables, church supplies, commodities sold for consumption or use outside of province, commodities purchased by Alberta government, Alberta liquor control board, cemetery company or society, charitable institutions, Dominion government, hospitals, municipal corporations, school districts, University of Alberta, vestry board of a church.

Containers and all packing materials to be used for the delivery of goods, boxes, bottles, sacks, bags, barrels, casks, crates (when returnable), wrapping paper, twine, string, cord, labels and all marks of identification of a product, all printed matter giving directions for use, information or explanation, material used in the making of crates, boxes, etc., glue for labels.

Debentures, debts, doctors' prescriptions for drugs and medicaments, drugs bought on doctors' prescriptions.

Fares on tramways, autobuses, boats, railroads or other transportation systems by land, water or air. Feed for poultry or animals, fertilizer, firewood.

Chemicals for treating seed grain, chemicals for the destruction of weeds and pests, barb wire, artificial limbs.

Foodstuffs.

Foodstuffs, cereals and their products, pies, pastry, biscuits, cakes, elementary pastes, bread, etc., meat and its extracted products, meat juice, packed and canned meat, milk and its products, cream, butter, cheese, malted milk, condensed milk evaporated milk, fish and its pro-

ducts, canned fish, eggs and their products, vegetables and their products, canned vegetables, prepared salads, etc., fruits and their products, dried fruits, canned fruits, preserved fruits, fruit juice, nuts, peanut butter, cocoa butter, etc., salt and spices and their products, sugar products except candies, confectioneries, chocolate and ice cream. (Ice cream is not, however, subject to tax when it is incorporated in a beverage). Syrups, maple butter, etc., gelatine, extracts, flavors, jelly powder, malt, sauces, soups, etc.

Grains, hay, ice, ice creams only when served in beverages and with meals, insurance premiums.

Labels and all marks of identification of a product, all printed matter giving directions for use, information or explanation (see "containers"), lubricating oils, lumber for making crates, etc. (see "containers"). Mail orders when merchandise is shipped outside of territory, meals, medicaments bought on doctors' prescriptions, money.

Here and There

Barnwell, Alta., sets this year's record for the first official report on work on the land, according to a message received March 19 by the Agricultural Department of the Canadian Pacific Railway at Winnipeg. The earliest last year was from Taber, Alta., which has held the record for five years, on March 21.

Alfred S. McKay, recently elected president of the Southern Alberta Pioneers' and Old-Timers' Association, is one of the two surviving members of the survey party which charted the route of the Canadian Pacific Railway across prairies and mountains in 1880-1885.

Interviewed at Victoria recently, W. M. Neal, vice-president of western lines, Canadian Pacific Railway, stated that he anticipated one of the biggest travel years in recent Canadian history. There had been, he said, a substantial improvement in passenger travel business last year which is expected to continue this year.

Changes in hotel management in western Canada are announced by H. P. Mathews, general manager Canadian Pacific Hotel system as follows:—T. E. Chester, manager Hotel Vancouver, appointed assistant general manager of the company's hotels in western Canada, succeeding A. E. Robertson, resigned; Colin F. Pratt, manager Palliser Hotel, Calgary, becomes manager Hotel Vancouver with W. J. Mylett, succeeding Mr. Pratt as manager of the Palliser.

1936 Master and Standard Chevrolets Replete with New Features

New Master and Standard Chevrolets for 1936 show marked advances in appearance and in engineering. Perfected hydraulic brakes, high-compression engines with full-length water jackets, and balanced carburetion are among the mechanical improvements. The solid steel Turret Top Fisher body is now used on the Standard as well as the Master models.

The illustrations show: Top left, the Master Six special sedan, with built-in trunk; top right, the re-styled, deeply moulded radiator grille, used on all models; lower left, the simple arrangement of Chevrolet's perfected hydraulic brakes, all models; and, lower right, a Standard sedan.

Tax Effective on May 1

Arrangements have been completed for the instituting on May 1 of the new tax on ultimate purchases by which individual purchases in excess of 15 cents will be taxed, Hon. Charles Cockcroft announced on Tuesday.

Hugh Baker, former attache to the Alberta office in London, and latterly secretary of the Tax Inquiry Board, has been transferred to the sales tax division. A. Mara, former manager of the credit branches of Edmonton wholesale houses has been named chief inspector of the branch.

There will be about 15,000 application forms for firms selling commodities in the province, sent out by the branch. Applications for registration have to be made within five days of the act coming into force.

**Crop Outlook
Brightest for Years**

The general outlook for Alberta's crop this year is the brightest in several seasons, Minister of Agriculture W. N. Chant commented Saturday.

"Moisture is abundant throughout the province, to some extent even in the former drouth areas," he said, after scanning reports from all parts of Alberta.

"The season is a little later, and seeding is not yet general, but there is little danger, so far, of the delay causing loss of crops. A few warm days will bring work on the land up to schedule."

**Hail Insurance Excluded
from Consolidations.**

When municipal hail insurance taxes are included in tax consolidations in a municipality, they are barred from inclusion in ordinary deductions allowed on payment of the rest of the consolidated amount, according to provisions of an order-in-council.

A similar order passed last year provides that arrears of taxes are allowed specified discounts ranging from 3% for those one year in arrears to 25% for those more than six years past due.

The order states that, "It being deemed expedient to vary the terms of this order insofar as they relate to municipal hail insurance taxes," the cabinet now orders that it be varied by adding:

"In case of taxes levied under the Municipal Hail Insurance Act are included in any consolidated taxes, such municipal hail insurance taxes shall not be subject to any discount, but shall bear interest at the rate of 5% per annum from July 1 to Dec. 16, whichever first happens in the year after the tax consolidation agreement has been entered into until payment. The treasurer shall allow such discount not in excess of 10% upon payments made in receipt of such taxes as may be from time to time fixed by the hail insurance board."

Items of Interest

The Calgary Hospital Board are protesting against the provincial government's decision to reduce the hospital grant from 50 cents per day to 45 cents. The Alberta Hospitals Association will be asked to join the board in making the protest.

DIDSBURY, England, April 23—Sonia, lioness in the Sangar circus here, surprised her keeper by giving birth to three cubs on the stage just before the time for her appearance before the audience. One cub died.

CARD OF THANKS

We wish to express our sincere appreciation for the great kindness extended to us by the neighbors and other friends of our late brother, Carl V. Fullerton.
K. Fullerton, Vancouver.
R. D. Fullerton, Montreal.

Doings of Our Neighbors

AT THREE HILLS: Negotiations are under way for the erection of a modern flour mill in Three Hills and providing it is found sufficient support will be given the venture construction will commence in the very near future.

AT ALLINGHAM: Water fowl are more numerous this spring than any spring for several years back. All lakes that were dry last fall have any amount of water in them.

Quinquennial Census.

As the time approaches for taking the quinquennial census of the western provinces, the date selected being the 1st of June, 1936, the Census Commissioner wishes to draw the attention of farmers to the advance schedule forwarded them some months ago.

By assembling carefully the information called for in that schedule, much time may be saved the farmer at a very busy season of the year, and also to the Census Officer, whose duty it is to obtain detailed information for the Dominion Bureau of Statistics.

The Printer's Devil

This trade term originated in Italy. Aldus Manutius was a printer in Venice. He owned a negro boy, who helped him in his office; and some of his customers were superstitious enough to believe that the boy was an emissary of Satan. He was known all over the city as "the little black devil" from his dirty appearance, for his face and hands were generally well smudged with printing ink. Desiring to satisfy the curiosity of his patrons, Manutius one day exhibited the boy in the streets, and proclaimed as follows: "I, Aldus Manutius, Printer to the Holy Church and the Doge, have this day made public exposure of the Printer's Devil. All who do not think he is flesh and blood may come and prick him!"

FLEMING'S FOLLY

— BY —
LAWRENCE A. KEATINGE

CHAPTER X—Continued

"Yuh can't foot me, Link Fleming!" The words spilled in a torrent from his quivering lips. "I got the truth about yuh an' I got it right. Did you think there wasn't anybody in town man enough to put me wise?"

"Why, Buzz!" the girl pleaded. "What do you mean?"

He turned on her almost savagely. "You ought to see through it but yuh don't. You've got control of our spread; I haven't any rights till I'm pardoned. That's what Kilgo wanted to get for me. Yes, you'd see through this scheme too, if you weren't so blind in love he's got yuh buffaloed! Every time he holds your hand—"

"That's enough, Hamilton!"

Shamed so that her countenance fairly glowed with blushes, Helen looked away, uncertain how to deal with her drink-roused brother parrotting sentiments obviously not original with him. "Please, let's not quarrel the first hour we're together again! After I've—I've prayed for you, and hoped and—"

"That's all right," he growled. "But I can't see how yuh ever fell for Fleming's lingo about that dam. There isn't a rancher in the county has faith in it. Soak Torney said it wasn't any good, didn't he? You're shore to break our spread—trying to irrigate a heap o' sand!"

He pointed ahead, toward the foothills of the Captain Range a few miles away, topped by jagged peaks rising into serene blue sky. "That wasteland'll never be anything, no matter how much money yuh pour into it," Buzz declared emphatically. "Waterin' twenty cent ground!"

Link stared where he indicated but scarcely saw the yellowish expanse beyond low-lying buildings of the Triple H Ranch, on whose property they now rode. He was pondering how to win Hamilton's confidence, and bitterly reproached himself for having knocked the bottle away. Yet he knew sight of Buzz drinking was like a knife turned in Helen's flesh; he had been forced to the move by the utter misery in her soft eyes.

"Hold on, oldtimer," he said in a controlled tone. "I don't think it'll be so bad after all. Silver Creek's only thirty-two feet across where we're damming it. There are rock sides for a mile back that'll hold an awful lot of water. Of course, we dug a cut-off while the dam's being laid, and we're digging irrigation ditches through that wasteland."

"We've got a good engineer in charge," he went on, watching hopefully for even a modicum of interest. "His name's McLendon, and he's built a lot of dams. It's like this," he continued. "I'm standing seventeen-twenty-sixths of the cost, on account of having seventeen hundred acres to Helen's—yore—nine hundred."

"I'll admit, we're hard pressed for money, Buzz. Had to raise first mortgages on our spreads, and we gave a note for that eight hundred that was just stolen. But what if folks do call it Fleming's Folly? Inside of a couple of days they'll change their tune. Because the Silver Creek Dam will be workin' mighty quick now. Nothing can stop us—we're going to increase the value of the Triple H and Star Loop at least three hundred per cent. If you ask me, a thousand per cent!"

Ending, he was conscious of Helen's eyes upon him, wide and shining with enthusiasm. Link smiled at her, then glanced at Buzz. His upper lip was curling.

"Yeah?"

It carried plainer than words the leap-set intractability of the man. It was as if he had called Link a liar, as if he had sneered: "It'll never work, and even if it does, I won't believe it!"

The partners exchanged discouraged looks. Buzz Hamilton's homecoming was not a success. If anything, he was an added obstacle, a thorn in their path, where already there were so many . . . 2145

If You Eat Starches Meats, Sweets Read This

They're All Necessary Foods — But All Acid-Forming. Hence Most of Us Have "Acid Stomach" At Times. Easy Now to Relieve.

Doctors say that much of the so-called "indigestion," from which so many of us suffer, is really acid indigestion . . . brought about by too many acid-forming foods in our modern diet. And that there is now a way to relieve this . . . often in minutes!

Simply take *Phillips' Milk of Magnesia* after meals. Almost immediately this acts to neutralize the stomach acidity that brings on your trouble. You "forget you have a stomach!"

Try this just once! Take either the familiar liquid "PHILLIPS", or, now the convenient new *Phillips' Milk of Magnesia Tablets*. But be sure you get Genuine "PHILLIPS".

Also in Tablet Form:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine *Phillips' Milk of Magnesia*.

PHILLIPS' Milk of Magnesia
MADE IN CANADA

CHAPTER XI.

Drawing rein in the Triple H yard, the riders saw two men in nondescript garb seated on the edge of the ranch house stoop, looking as if they had waited there some time. The pair rose with deliberation and ambled forward while Link and Helen exchanged questioning glances.

"Howdy, boys," Fleming greeted, uneasily aware of a truculent note in their bearing. "Anything wrong at the dam?"

One of the men, his leathery face thickly blacked with beard, spoke up. "There's plenty wrong at the dam. We want our wages and we ain't doin' another tap of work till we get 'em!"

"Said yuh'd pay us twice a month, didn't yuh?" growled the other. "We're weeks behind now. How about it?"

Link felt Helen and Buzz watching him and knew the girl was troubled, while young Hamilton's countenance wore renewed derision. He forced a grin and gestured placatingly. "Boys, you don't need to worry about that money."

Tug Orless turned to the girl. "Yo're pardners with Fleming, Miss. How about it?"

"I'm sure you will be paid," she answered promptly. "But Mr. Fleming and I are rather hard pressed right now, and—er—it may be necessary for you to give us a little more time."

They exchanged significant looks. "We know why yuh went to town this mornin', Fleming. Somebody's gonna throw yuh into bankruptcy, the cement guys or somebody. Yore creditors are hollerin' on yore fool dam. But we found out wages get paid first, so there ain't gonna be any way for yuh to wiggle outa that!"

Surprise flooded his lean countenance. "Somebody's fooling you, boys. I don't know anything about creditors throwing us into bankruptcy." He turned to Helen. "Do you?"

She shook her head. "Of course not. The dam will be finished."

"Mean to say yuh didn't go to

INDIGESTION, GAS?

When you feel rundown, or your stomach gives trouble with gas or "sour risings," try that well-known tonic, *Dr. Pierce's Golden Medical Discovery*. Read what Mrs. Marjorie Beatty of 461 E. Main St., Welland, Ont., said: "I suffered considerably from indigestion and gas and my food lay so heavy in my stomach. I would become bloated too and felt very uncomfortable after eating. I used only one bottle of Dr. Pierce's Golden Medical Discovery and it gave me fine relief from the stomach distress. I feel ever so much better after its use."

Buy now of your neighborhood druggist. New size, tabs. 50c. Liquid \$1.00 and \$1.35.

Rawhide to fix things?" demanded Orless with suspicion.

Tug, Miss Hamilton and I went to Rawhide to meet Buzz. He was just paroled to me, and that little affair last Fall is all forgotten. I wish," he added as an idea struck him, "that you'd spread the word around. Buzz has paid his debt and he's making a clean start. Jack, I reckon if your brother'd come home after—being away—you'd go meet him, wouldn't you? That's what Miss Hamilton did, and I went along."

Helen flashed him a grateful look. Even the ex-convict seemed impressed with Link's words, and it seemed that Buzz straightened and threw his shoulders back.

"But how about wages?" insisted Kevin. "When do we get paid? We ain't workin' for our health!"

"Of course not. I'll tell you right out, we're pressed for cash, just like Miss Hamilton said. We make no secret of it. But there are arrangements under way to pay you, and if they shouldn't go through I'll figure out something else. If you go back on us now, we might go broke. Then I reckon you'd be out o' luck."

"But if you stick," he proceeded, watching their reactions, "I'll give you my word you'll get cash as soon as possible. And backin' me up, Miss Hamilton'll tell you the same thing."

Helen nodded, her eyes fixed hopefully on their grim faces. The pair shifted weight and pursed their lips. Finally Tug Orless turned half away. "We got to find out what the others say that're waitin' at yore spread. We come over here to be shore there wa'n't no fast ones pulled on us."

This information struck fresh apprehension to his heart, and looking out of the corners of his eyes at Helen, he saw that worry possessed her as well. But they concealed their feelings and smiled tolerantly, as if the matter would soon be adjusted.

"I'll ride over to the ranch with you, boys," Link announced. "Where's your hosses?"

They went to fetch them behind the ranch house, and it did not escape Fleming that Kevin and Orless had hidden their mounts from view of anyone approaching from Rawhide. This indicated, of course, that they actually feared Link and Helen would not have come to the Triple H had they known of the reception committee.

"Where'd Buzz go?" he asked in a low tone, looking around.

A troubled expression came to her face. "He went inside. And, Link, I just know he has another bottle of whisky."

They stood a moment considering. "Well," he decided, "I reckon I better go talk to him."

But she touched his arm in restraint. I know how Buzz is, very irritable when he's been drinking. Better if we let him alone. I hope," she added bravely, staring toward the mountains, "he hasn't started to—be like he was before."

"You know," Helen went on in a tone of wistful regret, "Buzz was never like the rest of us. Father said when he was dying that I should be very careful how I treat him. Buzz—oh, he has temptations we don't feel. He can't resist gambling and drinking. It will be hard to keep him out of bad company."

The fervor of her anxiety carried straight to the Star Loop owner's heart. Fleming wanted to comfort her, to drive away every little groove that marred the satiny brow showing under her Stetson. He gazed at Helen with eyes brimming affection, and the slender hand on his arm exerted pressure that proved she understood and was grateful.

"You're enough to worry about. Leave Buzz to me. How will you handle the men?"

He shrugged his shoulders. "Reckon they'll go back to work all right. But gosh, that eight hundred being gone makes things hard. You didn't even get a good look at the hombre?"

"No. The bandana covered his whole face. All I have for a clue is that leather cuff I turned over to the sheriff."

(To Be Continued)

Canada's Northwest Territories comprise an area of 1,309,682 square miles, or more than a third of the entire land area of that country.

PAINFUL JOINTS

often are a warning that your kidneys have become deranged and need attention. Don't suffer needless pain. Take Gin Pills to obtain relief while assisting your kidneys to function properly.

Little Helps For This Week

Blessed are the peacemakers; for they shall be called the children of God. Matthew 5:9.

Grant us Thy peace, down from Thy presence falling.
As on the thirsty earth cool night-dews sweet;
Grant us Thy peace, to Thy pure paths recalling.
From devious ways, our worn and wandering feet.

Have you ever thought seriously of that blessing given to the peacemaker? People are always expecting to get peace in heaven, but whatever peace they get there will be ready-made. Whatever making of peace they can be blessed for must be on the earth here; not the taking of arms against, but the building of nests amongst its seas of trouble. Difficult enough we think, but very few of us really try. We complain of the want of many things, we want liberty, amusement, money, and which of us knows that he wants peace? We should ask God, whose chosen reward is the gift of peace, to pour it into our souls so that everything discordant may utterly vanish, and all that makes for peace would be sweet to us forever.

A Novel Burglar Trap

Not Only Protects Property But Also Catches Thief

A novel "burglar trap" which not only makes it impossible to rob any safe to which it is fitted but also catches the thief has been invented by a Budapest policeman. The device, which has been patented, is extremely simple. A special container in which is a quantity of a secret gas is fitted inside the safe. In such a manner that when the burglar's tool pierces the safe it also pierces the gas container. The gas, which is in a compressed form, hisses out and overcomes the thief. A few sniffs of the gas is enough to make any burglar fall asleep for several hours. The attempted theft is certain to have been discovered before he awakes and he can thus be easily arrested. The policeman-inventor, Joseph Woldram, has already received many enquiries from safe manufacturers in Hungary and abroad.

Name Of Small Village

"Tenant manager sought for restaurant, with living quarters adjoining, at the railway station of Great Britain." So ran a recent advertisement in a German newspaper. The Great Britain mentioned is a small village in East Prussia with a population of 220. A neighboring hamlet called Little Britain has only 30 inhabitants.

Badminton In South Africa

Badminton is developing into a craze in South Africa. Not long ago the game was unknown. Then some church organization took it up. Now clubs are springing up in East London, Port Elizabeth, Grahamstown and many other places, and matches attract large crowds of spectators.

Lake Baikal, in central Asia, is believed to be the only land-locked water in the world containing seals.

**Hospital Aid
Annual Meeting**

The annual meeting of the Hospital
Aid Society was held on Tuesday
afternoon when the following officers
were elected:

President: Mrs. N. S. Clarke.
1st Vice: Mrs. Ed Parker.
2nd Vice: Mrs. Noah Eckel.
Secretary: Mrs. Chamberlin.
Treasurer: Mrs. Tighe.

It was arranged to hold a tea at
the hospital on Hospital Day in June.

**The Clock Stopped
4:53 P.M. Monday**

The clock in the Heel Hugger
Contest conducted by J. V. Berscht,
stopped on Monday evening at 4:53

The closest guess by ladies was
made by Miss Lily Neilson and the
best gent's guess was made by Mr.
Ed Rieder. Both winners receive
a pair of Heel Hugger Shoes

Burnside Notes.

We extend congratulations to the
newlyweds, Mr. and Mrs. Ted Bol-
ton (nee Helen Pross) on their
recent marriage.

Mrs. R. Bittner, of Calgary, spent
a few days last week visiting her
family in the district.

Sam McAllister, Fred Doll and
Bill Wulawka were Sunday visitors
with Noah Eckel.

Bob Spraggs came down Monday
from Vermilion Hospital, where he
spent the last three months, and is
convalescing at the home of his father,
Mr. Albert Spraggs.

Mrs. Chris Ehret was hostess at a
tea and shower Thursday afternoon
for Miss Alberta Metz, popular bride-
elect. About twenty ladies were
present and the guest of honor was
presented with a great variety of
beautiful and useful gifts.

Obituary.

BLOXHAM

Charles Byron Bloxham, aged 77,
died at the Didsbury Hospital on
Tuesday, April 27.

Mr. Bloxham was born in Iowa
and came to Alberta 31 years ago.
He homesteaded northwest of Dids-
bury and later moved to Sundre.
He retired about two years ago and
moved to Didsbury, where he resided
up to the time of his death.

The funeral will be held at the
Durrer Funeral Chapel at 2 p.m. on
Friday.

Nine weeks have been named
and arranged for Vancouver's
Golden Jubilee celebrations proper
this summer but the festivi-
ties will cover the whole season
and are expected to attract visit-
ors from all over the world. One
of the high lights will be the re-
enacting of the arrival of the
first Canadian Pacific train half
a century ago.

Thirteen short European cruises
from British ports will be
made between May and October
by the Canadian Pacific liners
Montclare and Montcalm this
year. The Baltic and the Medi-
terranean will be covered exten-
sively in these voyages.

Dr. A. H. Compton, physics
research expert, recently return-
ed from a trip to Honolulu on S.
S. Aorangi, after studying ac-
tiveness of the cosmic ray in the
southern hemisphere. A special-
ly constructed house on the
liner's after-bridge contained the
delicate apparatus for the pur-
pose of securing more data on
the little-known but ever present
ray during the ship's Antipodean
trip.

**GOPHER POISON.
NOTICE.**

The Municipality of Westerdale,
No. 311, has arranged with the deal-
ers in gopher poison at Didsbury,
Olds and other points, to supply an
equal amount of gopher poison to
that paid for by the farmers of the
municipality, the arrangement to be
in effect until the 1st day of June,
1936

The Council requests that the farm-
ers place their poison early.

A McNaughton, Sec. -Treas.,
Municipality of Westerdale
No. 311

LOCAL & GENERAL

Miss Grace Ranton visited the
southern city on Tuesday.

Mr. and Mrs. H. I. Munroe of Oyen
spent a few days last week with
Mr. and Mrs. H. I. Cates.

We have Good Strong Leather
Work Gloves from 45c a pair, up—
T. E. Scott.

About 75 people took advantage
of the excursion to Calgary last
weekend.

Mrs. J. Russell and Miss Jean re-
turned on Sunday from Vancouver,
where they have been vacationing.

George Boorman, who practiced
teaching at Gore School last week,
returned to his studies at Calgary
Normal School on Sunday.

Mr. Art Reiber, who has been
attending the University of Alberta,
returned home last weekend for the
summer vacation.

Mr. and Mrs. J. A. McGhee enter-
tained the Easter Matron and
Patron's Club of Calgary on Wed-
nesday evening.

Miss Fullerton, who has been here
for some time attending to her
brother's estate, returned to her
home at Vancouver on Tuesday.

Miss Jessie McCoy returned home
Saturday from the University of
Alberta, where she has completed
her second term of studies.

Try a pair of our \$2.50 Work
Shoes.—T. E. Scott.

John Miller, of Calgary, replaces
Ralph Hoare at the Royal Bank.
Mr. Hoare, who was injured a couple
of weeks ago, has been able to leave
the hospital and will take a position
in Calgary on his recovery.

Tonight (Thursday) the local
Chapter of the Eastern Star will
give a "telephone" bridge party.
Bridge will be played at the homes
of the officers of the Chapter, after
which they will gather at the Odd
Fellows' Hall for refreshments and
dancing.

You will save money if you buy
your Work Clothes and Shoes from
T. E. Scott.

MARRIED

On April 3rd at the Presbyterian
Church, Armstrong, B.C., Miss E. J.
Bloyd to Mr. Noble Cole.

Knox United Church Notes.

The Choir are to be complimented
on their readiness to take their Easter
cantata to other churches. Two
weeks ago Carstairs was visited,
with the result that we were favored
with a visit from the Carstairs United
Church Choir. The congregation
certainly appreciated the special
music. We hope that there will be
other exchanges in the future.

Westcott and Westerdale Churches
had the pleasure of hearing the
Knox Choir last Sunday and greatly
appreciated their rendering of the
Easter cantata.

There will be services next Sunday
at the usual hours conducted by the
pastor.

Evangelical Church Notes

Rev. W. W. Krueger, D.S., of
Regina, will be the guest preacher
at both services next Sunday

The fourth quarterly conference
will be held at the church Friday
evening, May 1 at 8 o'clock. All
members should be present and
have their reports ready.

The illustrated lecture to have
been given by Rev. F. E. H. James
last Monday night was postponed.
It will be held Monday evening
May 4.
